REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: absent the present specification, there was no motivation or teaching in the prior art to utilize the claimed "standard liquid" as one of the component replenishing liquids. The prior art teaches utilizing a basic liquid (i.e.-water or water and copper sulfate/sulfuric acid) and maintaining each of the plurality of additives (dissolved in water) in individual containers to be added as needed. Thus, the claimed "standard liquid" which contained the basic liquid (water, copper sulfate and sulfuric acid), the plurality of additives and hydrochloric acid, is not taught by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
